MATH CLUB

COLLEGE SECTION BANGLA VERSION

SPEECH OF MODERATOR

Mathematics is the study of numbers, shapes, patterns and relationships. It helps us solve problems, think logically and understand the world around us. It is not just calculations – it's the language of science and nature ,guiding us in every part of life.

Moderator Math Club (Bangla Version)

AFROZA BULBUL

Assistant Professor

Department of Mathematics

CONTD.....

This club tries to make math easy, fun and useful for students. Through different activities ,we help them grow their creativity , confidence and leadership skills .So, learn math with love, not fear and join the club's activities actively.

MISSION & VISION

Our mission and vision in Math Club are to improve the state of mind to develop their practices and accuracy. In college level, there are a lot of new topics which needs a lot of patience to learn. Mathematics is really a creative subject. We teach the basics, techniques, shortcuts etc. Then we take quizzes one by one and refreshing them and finally, they are prepared for any competition.

AIM & GOALS

Math has become an essential part in all the fields including biology, physics, chemistry, astronomy, finance and banking. But academic math limits our range of exploration whereas, Math Club aims to create the opportunity to discover new ways of solving problems, develops our basics and enhances our perspective. It creates a platform to discover new probabilities, competes with other geniuses and helps us to reveal what charisma numbers and symbols have. It helps us to explore the world of numbers and makes us believe that every range can be calculated, every equation can be proved and every problem has solutions.

“PRACTICING MATHEMATICS IS A POWER”

ONE WHO DOES IT, HE/SHE GAIN IT

IT’S A TREASURE OF ONE’S OWN.

THANKS TO ALL.
